PROFESSIONAL SUMMARY

Aspiring Full-Stack Developer and AI enthusiast, pursuing B.Tech in Computer Science (AI & ML) at Ajeenkya DY Patil University. Passionate about building innovative web and AI solutions, with skills in HTML, CSS, JavaScript, and Python. Gearing up for Google Summer of Code 2025 to contribute to impactful open-source projects!

EDUCATION

Bachelor of Computer Applications (AI ML) Ajeenkya DY Patil University, Pune	2024 - 2028 Grade: 8.55/10.0
Intermediate (Class XII) B.H Rathod High School	2022 - 2024 Grade: 60.0%
Matriculation (Class X) Shree Pv Modi High School, Rajkot	2021 - 2022 Grade: 91.0%

PROJECTS

Portfolio-Builder , (Github) (Demo) A modern, interactive portfolio builder that helps you create stunning developer portfolios with ease. Built with React, TypeScript, and Tailwind CSS.	September 2024
portfolio Template , (Github) (Demo) it is a simple portfolio template made using the css and html without any libraries, it was the first project i created.	September 2024

CERTIFICATIONS

Generative AI for Everyone , Deeplearning.ai (Link) "Generative AI for Everyone" by Deeplearning.ai, instructed by Andrew Ng, offers a beginner-friendly dive into how generative AI works, its real-world applications, and limitations. The course includes hands-on exercises in prompt engineering and using AI tools effectively for everyday tasks.	March 2025
Prompt Design in Vertex AI , Google Cloud (Link) Google Cloud's Prompt Design in Vertex AI certification teaches prompt engineering, image analysis, and multimodal generative techniques using Gemini models. By completing hands-on labs and a final assessment, you earn a shareable skill badge recognizing your proficiency with Google Cloud tools.	February 2025
Responsible AI: Applying AI Principles with Google Cloud , Google Cloud (Link) Responsible AI with Google Cloud teaches how to operationalize ethical AI practices using Google's frameworks, best practices, and real-world insights.	February 2025
Introduction to Responsible AI , Google Cloud (Link) This is an introductory-level microlearning course aimed at explaining what responsible AI is, why it's important, and how Google implements responsible AI in their products. It also introduces Google's 7 AI principles.	February 2025
Introduction to Large Language Models , Google Cloud (Link) This is an introductory level micro-learning course that explores what large language models (LLM) are, the use cases where they can be utilized, and how you can use prompt tuning to enhance LLM performance. It also covers Google tools to help you develop your own Gen AI apps.	February 2025
Introduction to Generative AI , Google Cloud (Link) This is an introductory level microlearning course aimed at explaining what Generative AI is, how it is used, and how it differs from traditional machine learning methods. It also covers Google Tools to help you develop your own Gen AI apps.	February 2025
Generative AI for Everyone , Deeplearning.ai (Link) Generative AI for Everyone by Deeplearning.ai is a non-technical course that demystifies AI concepts, explores real-world applications, and helps individuals and organizations effectively collaborate with AI teams and build AI strategies.	February 2025

SKILLS

Computer Languages: Python, JavaScript, CSS, HTML
Software Packages: Pandas, React
Additional Courses: Data Structure
Soft Skills: Communication Skills, Teamwork, Time management

EXTRA-CURRICULAR ACTIVITIES

Co-curricular Activities

Positions of Responsibility

- **Robotics Club Member:** Contributed to building robotic prototypes and participated in inter-college competitions, fostering innovation and teamwork.
- **Line Following Robot Workshop Participant:** Gained hands-on experience in robotics, enhancing practical knowledge in sensor integration, circuit design, and algorithm development.
- **Hackathon Participant:** Collaborated in hackathons to develop AI and ML-based solutions, enhancing problem-solving abilities.
- **Tech Fest Volunteer:** Managed technical events and workshops at university fests, developing leadership and event management skills.
- **Event Management:** Organized AI and ML workshops, demonstrating strong coordination and organizational capabilities.
- **NVIDIA AI Summit Attendee:** Gained insights into generative AI, quantum computing, and practical AI applications. Networked with industry leaders, including NVIDIA CEO Jensen Huang and prominent founders, enhancing my professional exposure.
- **Mumbai Tech Week 2025 Participant:** Engaged in discussions on AI advancements and explored innovations in the startup ecosystem.
- **DevFest 2024 Attendee:** Participated in developer-focused sessions, gaining knowledge in modern technologies.
- **Hacktoberfest 2024 Contributor:** Contributed to open-source projects during Hacktoberfest, collaborating with the global developer community to solve real-world problems.
- **GSoC 2025 Aspirant:** Actively contributing to open-source projects like the Eventyay Badge Creator, expanding hands-on experience in software development.
